How much will I have to pay?

The standard boiler replacement install cost is **£2,300**. A discount of **25%** will result in a reduction of £575 off the install cost and a customer cost of **£1,725.00**. The total cost may differ depending on the type of the current boiler.

The small print

Terms and conditions apply. Only customers who meet the eligibility requirements shall qualify for the offer. Offer only applies to boiler measures recommended by an appointed surveyor and is subject to survey. Offer only applicable to residential properties. The offer is subject to availability and subject to change or withdrawal at any time.

You are in professional hands

The Healthy Housing Service is part funded by Public Health and the Queen's Award winning charity Nottingham Energy Partnership. Together they aim to ensure that households that are most vulnerable to health risks caused by living in a cold or damp house receive help to improve their home.
